Education

Degree	Institute	CGPA/Percentage	Year
B.C.A	Kalasalingam Academy of Research and Education	9.11	2023-2026

Projects

Weather App |

- Developed a Weather app made with ReactJS that shows the current weather, humidity, and wind speed according to the different places.
- Has a simple and easy-to-use design for quick weather updates, integrated with the weather API to show the real time data.
- Tech stacks used – HTML, CSS, JavaScript, ReactJS, API.

Event Management System |

- Created a Event Management System using JavaScript that enables users to get all the information of all upcoming event in any particular organisation and they pre- book the ticket of upcoming event very efficiently.
- Enhanced user productivity through a user-friendly interface and responsive design.
- Tech stacks used – HTML, CSS, JavaScript, ReactJS.

Technical Skills

- Languages: HTML, CSS, JavaScript, JAVA, DSA, SQL
- Frameworks: ReactJS, NodeJS
- Subjects: Operating System, OOPS, DBMS, Computer Networks
- Databases: MySQL, Mongo
- Miscellaneous: Git, VsCode, GitHub

EXPERIENCE

- Lead Team in various events like Hackathon, IOT projects and Web Development events.
- In current time I am working with 4 developers on a Free Food Donation application named KINDKITCHEN. By using this application we provide free food to the poor. Utilized technologies such as HTML, CSS and JS.
- Ensure user satisfaction and retention by providing responsive tech support.
- Build and maintain software documentation sites using various programming languages.

Key Courses Taken

- Mathematics: Linear Algebra, Real Analysis, Complex Analysis, Ordinary Differential Equation
- Computer Science: Introduction to Computing, Introduction to Computing Laboratory
- Data Structures and Algorithms in JAVA
